SAT Bridge

SAT Bridge is a new Kaplan Japan course aimed at junior high school students and high school freshmen and sophomores, who, although not ready to begin studying for the SAT, wish to become familiar with the format and content of the test, and to begin building the skills they will ultimately need for an outstanding score. The class covers all three sections of the SAT, with three lessons each of Critical Reading, Writing, and Math. Our expert instructors use time-proven Kaplan methods in a fun, interactive environment, placing special focus on the core skills--active reading and knowledge of the rules of grammar, algebra, and geometry--that form the foundations of all strong SAT scores. Young minds will not only benefit by learning test-specific skills, but also by beginning to form the critical thinking abilities not taught in high-school, but vital to success in higher education.
